

## Corporate Factsheet

Codima Inc. delivers sophisticated, fully integrated and automated network management tools for data and voice over IP (VoIP) networks that are easy to use and cost efficient.

Our customers use our Toolboxes to discover, inventory, map and monitor IT assets and in pre- and post-deployment of VoIP to optimize asset use, reduce costs and ensure technology investments deliver a return-on-investment to the business. Uniquely, our ability to visualize 'live' complex networks directly in Microsoft® Office Visio® with just a click of a button, improves productivity and efficiency of IT departments.

Our versatile and scalable solutions have been used by customers ranging from small and medium sized businesses to large corporations requiring centralized management as well as remote management of multiple offices.

In 2010, **Codima Green**, the environmental division was launched, specializing in recycling end-of-life electronics.

## Solutions

### **Codima Toolbox All In One**

Manage complex data and VoIP networks from end-to-end with a powerful and fully integrated solution

### **Codima IT Inventory & Mapping Toolbox**

Track and map any IT network simply and quickly with direct visualization in Microsoft® Office Visio®

### **Codima IT Engineer Toolbox**

Real-time network performance monitoring with bottleneck, path, protocol and passive diagnosis

### **Codima VoIP Readiness Toolbox**

Save time and avoid unexpected costs by evaluating if a network can handle IP Telephony installation

### **Codima VoIP Monitoring & Troubleshooting Toolbox**

Monitor Quality of Service and troubleshoot SIP and Cisco Skinny networks all in real time.

## Customers

British Telecom, Royal Caribbean Cruise Line, The CCMUA Network and the Philadelphia Museum of Art are just some of our customers. Others include small, medium and large organizations, system integrators and IT consultants.

Codima solutions are also supplied to partners on an OEM basis.

## How to Buy

Codima has a global network of sales offices and an online sales facility and while some of our customers choose to buy direct, we also have a reseller network providing professional services tailored to the needs of the customer.
